

Biatain® Range Now on Formulary

Biatain® Silicone with 3DFit Technology is designed to reduce exudate pooling and thereby the risk of infection and maceration of the wound edge and periwound skin.

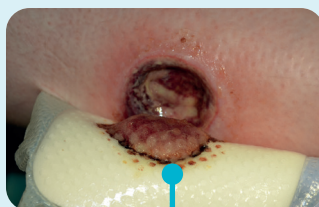

Absorbs Vertically

to protect surrounding skin and wound edges from maceration

Conforms to the wound bed

to minimise gap formation and reduce exudate pooling

Retains Exudate

and **99.98% of bacteria¹** to reduce the risk of infection and damage to the periwound skin

3DFit Technology in clinical practice

Biatain® Silicone

Size (cm)	Qty	Code	NHS	PIP
7.5x7.5	10	3434	ELA425	353-3817
