

The same  
Peristeen<sup>®</sup>  
you know.  
Now easier  
to use!

Peristeen Plus is also available without the toiletry bag to help reduce our environmental footprint

**Peristeen<sup>®</sup> Plus**

Thank you for helping us make Peristeen better

At Coloplast, we aim to live up to the expectations you and your patients have. And so, we have listened to the feedback of healthcare professionals and Peristeen users to create Peristeen Plus, an upgraded version of our industry leading transanal irrigation device. Peristeen Plus comes with several improvements which make it easier and more intuitive to use.

[Read on to find out how we have improved Peristeen.](#)

# What's new in Peristeen® Plus?

## + New connections

The Peristeen Plus catheter is easier to connect and the Peristeen Plus turquoise connectors are easier to twist and lock

## + New symbols on the control unit

The symbols on the Peristeen Plus control unit are more intuitive and easier to understand

## + Water temperature indicator

The water temperature indicator helps to identify the correct temperature for irrigating

## Peristeen Plus builds on the legacy of Peristeen...

The first Transanal Irrigation (TAI) system

The only TAI system with RCTs<sup>1,2,3</sup>

**The first and only system recommended by NICE** for adults and children with bowel dysfunction<sup>4</sup>

Coloplast® Charter Best Start™ bowel patient support programme<sup>5</sup>

Toolkit to support healthcare professionals with clinical practice and pathways<sup>6</sup>

## The Peristeen Success Package

### Effective products

Peristeen is the world's best clinically documented TAI device. Peristeen Plus is as equivalent in efficacy and function as Peristeen and easier and more intuitive to use. The new Peristeen Plus TAI system can be used by your neurogenic or functional patients, including those with reduced hand dexterity.

### Uncompromising support

Even with a good product, TAI is a demanding procedure requiring a comprehensive, inclusive approach. Coloplast provides you and your patients with the help that is so important for a successful long-term outcome with TAI: Coloplast toolkit for bowel professionals and Coloplast Charter telehealth support for bowel patients.
